

International Joint MS Programme of Design Research for Interaction Tuition Fees and Scholarships

In determination of the tuition fees of the Joint Graduate Program, TU-Delft fees were specified by considering three different groups including European Union students, Turkish and of Turkish stock students or students from Turkic Republics, and students from other countries. On the other hand, METU determined the fees by considering two different groups including Turkish students and students from other countries.

During the three years of the pilot program, TU-Delft will award a scholarship to 5 Turkish students who will apply to the Joint Graduate Programme.
